GEN. SHAFTER INTERVIEWED.

CHICAGO, Oct. 18 -- Gen. Wm. R. Shaf-

or in an interview here regarding the Santiago campaign says, as to the suggestion that the landing should have bean at Aguadores: "Any commanding general who would have landed troops at Aguadores in praference to Baiquiri, ought to be court many tisled and shot for incompetency. It was not a good beach on which to land. The ground was densely covered with a vine or plant much more deadly than the polacious ivy. Through their way. The point was atrongly defended and there was no water betwees Aguadores and Santiago. The ground was impresellentia, if not impasselle. Had I landed at Aguadores and invested Santiago, the Spanish would have had a road over which they sould have retreated from the city if they so desired. My army went in over the hills and cut off the Spanlab retreat."

TWO MURDERERS HANGED.

Thomas Drugan and George Jacks Executed at Chicago—The Latter an Ex-

CHICAGO, Oct. 15.-Thomas Drugan and George Jacks were hanged in the county jail on Friday. Drugan was hanged at noon and Jacks one hour later.

Jacks murdered Andrew J. McGhee on February 27. McGhee, who was a collector, and was thought to carry is sent out by Spanish agents for the considerable money, was decoyed by W. J. Willows to a vacant flat, where Jacks killed him with a piece of lead pipe, securing \$26 and a gold watch.

Willows confessed, and is now serving a 16-year term in the penitentiary. Jacks was at one time chief of police of Muskegon, Mich.

In addition it was announced that transports to carry the entire garrisons of Gibara, Holguin and other places in those divisions will leave on October 20, October 24, October 26 and October 30. After they have sailed, it is pointed out half the island of Cuba will have been entirely evacuated.

CONSTANTINOPLE, Oct. 15 .- The am bassadors of the powers have trans mitted to the Turkish government the decision of their governments on the subject of Crete, which sets forth that while adhering strictly to their ultimatum, Turkey may possibly, later, be permitted to maintain a small force on the island as an emblem of Turkish authority.

WARRINGTON LETTER.

WARRINGTON, D. C., Oct. 14, 1808. The War Investigation Commission has about completed the taking of testimony in Washington, for the present, and will on Sunday start for Jackson-ville, Fla., where the testimony of some of the officers and men under Gen. Fitshugh Lee will be taken. It has been very clearly shown that much of the of supplies, and other troubles was the result of ignorance and inexperience on the part of regimental officers. Many of these officers did not know how to take care of their men, nor how to obtain supplies for them, and a few of them could not be made to understand; the necessity for the neglicry regulations which the medical officers saked them which the medical emocre saked them to enforce. While these shortcomings were unfortunate, it would not be possible to encape them in putting a large army composed of civilian volunteers in the field on short notice, as this government was compelled to do. It does not reflect in any manner upon the War Department, but it should be a lesson to all the states to encourage the National Guard, in order that there may always be an ample supply of trained officers who can be called into service by the general government whenever they are

The news from Paris concerning the Press Commission is receiving no serious consideration in Washington, because that which is not based upon guesse purpose of influenceing public opinion in this country, with the hope that it may result in a modification of the instructions of our Peace Commissioner. There is no anxiety in Washington about the treaty of peace, because every one is absolutely sure that it will be exactly what we demand it to be.

Gov. Holcomb dodged the job of selecting which of the two Nebraska regiments of volunteers—the First, which is at Manila, or the Third (Bryan's) which is at Jacksonville, Fla., -should be mustered out of service, which the President very cleverly transferred to him. He suggested to the War Department that neither regiment should be mustered out, but that all the companies of both should be reduced to the minimum of 81 men, which would allow quite a number of men to secure discharges, and his sug-gestion has been adopted and orders to put it into effect issued. This sugges tion of Gov. Holcomb's has added to the number who believe that Col. Bryan is glad he is where he cannot take part in the present political campaign.

In a report just received by the Department of State the following interesting business statistics are given concerning the principal city of one of our new essions: "In Manila there are many large cigarette factories, some of which employ as many as 4,000 hands. A few German, Swiss and English firms have entered that field. There is a large sugar

power; rope factories, worked mainly by hand (a few use oxen); a Spanish browery, which furnishes a good beer; a German coment factory, with 70 hands; a Swiss umbeells factory, a Swiss hat factory, which makes felt and straw arti-cles, the latter out of Chinese straw braid. A cotton mill with 6,000 spindles, with a capital of \$194,600, is in pro erection. The European firms in Manila are divided as follows: 45 Spanish, 19 German, 17 English, 2 English and 6 Swiss brokers, 2 French storekeesers Swiss brokers, 2 French storekeepers with large establishments, 1 Dutch and 1 Belgian. Small retail stores, of which there are 40, are kept by Chinese firms. The German and Swiss firms are general importers, while the export of hem; sugar, the import of dry goods, and the ship chandlery trade are in the hands of the English."

The attention of an official of the War Department being called to the official announcement of the Spanish governannouncement of the Spanish govern-ment's intention to retain a large body of troops in Oubs until the treaty of peace has been signed, he said: "That may mean seasothing in Spain, but it means nothing in this country or in Oubs. We have officially notified the Spanish Commission in Oubs that we shall take formal possession on Decem-beg 1, and we shall do so, regardless of what the Spaniards may do. The Spanish troops that remain in Cubs after that date will be under American authority. jurt the same as all residents of the island. regardless of nationality, will be. That is the whole thing in a nutshell. We are not interested in the announcements the Spanish government may see fit to make for home consumption; our plans are made, and will be carried out to the letter."

Brazil was friendly to us at a time during the war with Spain when unfriendliness would have considerably upset our plans. To show that this country appreciatees that friendliness, Secretary Long has ordered the battleships. Oregon and Iowa to stop at Rio Janeiro, on their way to Honolulu, and participate in the celebration to be held November 15, at that place, in honor of the anniversary of the establishment of the Republic of Brazil. It will be remembered that the cruisers Albany and New Orleans, and the auxiliary cruiser Buffalo were sold to us by Brazil; als that the Oregon was allowed to coal at Brazilian ports, on her long trip from the Pacific to Cuban waters.
